

KIT 260-100
LOT DA3

United States of America
Department of Transportation -- Federal Aviation Administration

Supplemental Type Certificate

Number SP01222WI

THIS COPY OF S.T.C. FOR AIRCRAFT RECORDS	
N	_____
S/N	_____
AND NO OTHER.	

This certificate issued to

*certifies that the change in the type design for the following product with the limitations and conditions therefor as specified herein meets the airworthiness requirements of Part * of the * Regulations.*

Original Product: Type Certificate Number:

Make: *See attached FAA Approved Model List (AML)
No. SP01222WI for list of approved propeller
Model: models, and applicable airworthiness regulations.

Description of Type Design Change:

Installation of Aircraft Development propeller vortelators on the propellers listed on the attached FAA Approved Model List (AML) No. SP01222WI, dated February 9, 2004, or later FAA Approved revision.

Data Required:

1. Aircraft Development, Installation Procedure – Propeller Vortelator Kit, Doc. No. 260-3, Rev. (-), dated September 3, 2003, or later FAA Approved revision.

Limitations and Conditions:

1. This is a non-interference approval and shall not interfere with propeller operation, other approved propeller systems and/or components.
2. Compatibility of this design change with previously approved modifications must be determined by the installer.
3. If the holder agrees to permit another person to use this certificate to alter the product, the holder shall give the other person written evidence of that permission.
4. A copy of this certificate and FAA Approved Model List must be maintained in the airplane permanent records.

This certificate and the supporting data, which is the basis for approval, shall remain in effect until surrendered, suspended, revoked or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.

Date of application: September 3, 2003

Date received:

Date of issuance: February 9, 2004

Date amended:

By direction of the Administrator

Joel M. Ligon

FAA APPROVED MODEL LIST (AML) NO. SP01222W1
FOR PROPELLER VORTELATOR INSTALLATION AIRCRAFT DEVELOPMENT

NOTE: The use of the parentheses () throughout this AML is to permit installation on any combination of modifiers to the identity of the propeller assembly or hubs dependent on the manufacturer and the applicable propeller type certificate data sheet. For example:

- 2A34C() would include: 2A34C22, 2A34C66, 2A34C241, etc. with any eligible blade.
- 11C-C2Y() would include: 11C-C2YF-1, 11C-CYR-4, 11C-C2YK-2, etc. with any eligible blade model.
- 1B235/() would include: 1B235/BFA, 1B235/DFC, 1B235/EFC, etc. as a propeller.
- 1A170/() would include: 1A170/DF, 1A170/FFA, 1A170/SFC, etc. as a propeller.

This is not an all-inclusive set of examples. These examples are meant to emphasize the broad scope of the approved models (above) via the use of the parentheses.
