	(2) A334B	16,000 lbs.	(1) ATS-AA72			(1) ATS
Piper: Navajo & Aerostar						
	(2) A434	6,000 lbs.				(1) ATS
Turbo Commander						
	(2) A360A	10,000 lbs.				

Application Chart Limitations

This chart was developed over the years to assist the buyer in the selection of any equipment that may be needed for lifting certain aircraft. While we've tried to be as accurate as possible, it's ultimately the buyer's responsibility to make sure the suggested selection of lifting equipment matches the actual requirements. Meyer Hydraulics does not warrant the accuracy of the information found in this Application Chart.
